Report on Activities under Cluster Unit MoU

Academic Year- 2021-22

Introduction-

The University Grants Commission (UGC) issued new guidelines for transforming colleges and universities into multi-disciplinary institutions as per NEP 2020. The guidelines prescribe three approaches, which include clustering of institutions located in proximity so that they can collaborate with each other to offer innovative programmes in offline, online or distance learning mode. The other two strategies recommended by the UGC include merger of single-stream institutions with other multi-disciplinary institutions under the same management or different managements and strengthening of existing establishments by setting up of new departments. colleges with poor enrolment and fewer resources may benefit by forming clusters with other institutions and help students access better facilities as well as avail innovative courses, according to the guidelines. The member colleges in a cluster will continue to function as affiliated colleges under the university in the initial phase during which they will share their resources to offer multi-disciplinary programmes and guide student research projects. Subsequently, the affiliating university may affiliate the cluster of colleges as a single unit which will be given autonomy in a graded manner before turning into an autonomous degree-granting cluster of colleges.

Cluster college unit under the Memorandum of understanding between four institutes Pratapsinh Mohite-Patil Mahavidyalaya Karmala, Yeshwantrao Chavan Mahavidyalaya Karmala, Bharat Mahavidyalaya Jeur and Vithalrao Shinde Arts College Tembhurni of nearby proximity is signed in last year with an aim to exchange faculties, facilities, student centric and capacity building program for faculty. One common platform will help to all the institution to organise and exsiccate some programs collaboratively.

Fallowing Activities are carried out collaboratively under Cluster unit MoU during 2021-22.

Activity-2- One Day Online National Seminar on New National Education Policy 2020

The New Education Policy was released under the Government of India's Ministry of Human Resource Development (MHRD) on 30 July 2020. With the motto of Educate Encourage Enlighten, this is the first education policy to be released in the last 34 years in India. The aim of the policy is to prepare the children of India with 21st century skills. The policy is founded on the three pillars of Research, Innovation, and Quality, with the objective of developing India into a knowledge super power. The National Education Policy 2020 proposes various reforms in school education as well as higher education including technical education. A number of action points/activities for implementation in school education as well as higher education are mentioned in the National Education Policy 2020.

To understand the various reforms in higher education we collaboratively organised one day national seminar on new national education policy 2020 on 12th April 2022. Two distinguished speakers and great educationalist Prof. Sudhakar Mankar and Prof. Dr. Shyamrao Lawande have shared their views in the seminar. Dr. Sudhakar Mankar in his talk mentions the restructuring of higher education apex bodies is an excellent policy initiative however, it is important to have appropriate linkages among them for effectiveness and efficiency in their functioning. Prof. Dr. Shyamrao Lawande expressed his view about starting of top 200 global universities to operate in India is a good number however, the government should ensure only not-for-profit institutions offering multiple programs to set up campuses in the country. The seminar is conducted through google meet online platform and total 244 participants have attended the event.
