### **Womens safety and cyber security Report 2022-23**

In Our College ICC celebrated 3 rd January Savitribai Phule birth anniversary. On this occasion ICC organized lecture of co-ordinator Nirbhaya Pathak from Karmala,police station. Police Naik Ganesh Gaikwad and Hemant Padule was present. Mr.Ganesh Gaikwad deleivered a lecture on Women's safety and Mr.hemant padule speech on cyber security.

Mr.Gaikwad told about domestic abuse, sexual assault and murder are common forms of violence against women. Dowry death is an ultimate form of murder In India. Indians are still with the psychology that dowry is tradition and girls' fathers lose everything to pay it. Domestic violence or domestic abuse is done by one partner with the other partner in a relationship. The rate of domestic violence is increasing in India. 70% of women are victims of domestic violence. It leads to depression and suicides. It's not a direct murder but it is a cause of murder for sure. Moreover, girls are forced into marriage at a young age. This child bride is not even mature enough to understand her responsibility. Acid throwing is a form of violent assault which ruins the beautiful girl's life. 'Cheat in a relationship' is another commonly found crime against women. He was aware our girl students about various incidence against women and how to protect herself from this. women keep on enduring this horrible behaviour against them. Hence, empowering them and by making them aware of what they must be doing, who they should be reaching out to and just exactly why it is important to not stay silent Women should adopt some self-defence tips and tricks so that it proves helpful during the worst sceneries for them.

The degenetory was told about cyber security Cyber safety is the **safe and responsible use of information and communication technology**. It is not just about keeping information safe and secure, but also about being responsible with that information, being respectful of other people online and practising good 'netiquette' (internet etiquette). **Cyber security must be an integral part of every education**

Countless videos and information about such defensive techniques are available online for educating women's safety. Primary and frontier tip for women is if it seems even a slight unsafe it's better to get out of that place immediately. Violence is widely observed in public transports, so she should try to avoid travelling with public transports at night, and if it's not possible then make sure you travel with enough crowds. If she is driving alone, don't give a lift to strangers, because we are not sure about their intentions. Using a Smartphone wisely can provide a bodyguard in emergencies. There is plenty of handy equipment available in the market which will provide assistance at the time of emergencies. Keeping such equipment, sprays, and small blades in the purse can be useful if things go wrong. Precautions are always better than cure!

Students, teachers, and administrators all need access to the learning tools necessary to understand, detect, and avoid cyber threats they may encounter in their daily activities.

Also after this, the president of the program and In-charge principal of the college, Dr.P.V.Deshmukh, explained the motive behind organizing this program. He also informed about the activities organized by the college under the guidance of honourable Padmaja Devi Mohite-Patil, Senate and Management Council PAH Solapur University, Solapur.In total 79 students and all Staff Members were presented.
