

## Best practice –I

### Title of the Practice: Environment Awareness Campaign

**Objectives of the practice:** The main objective of the practice is to create awareness about environment.

1. **Holistic Environmental Education:** Provide comprehensive opportunities for all stakeholders to acquire knowledge, values, attitudes, commitment, and skills essential for the protection and enhancement of the environment.
2. **Resource Conservation Demonstration:** Illustrate practical methods for individuals to protect and preserve natural resources, emphasizing reduced plastic usage, water conservation, and promoting recycling practices to minimize landfill waste.
3. **Biodiversity and Wildlife Conservation:** Safeguard and conserve wildlife and biodiversity through educational programs, emphasizing the interdependence of ecosystems and human well-being.
4. **Policy Analysis and Dissemination:** Study, analyse, and disseminate information on policies, programs, and legislation impacting environmental, health, safety, and sanitation aspects to foster informed decision-making.
5. **Behavioural Change Advocacy:** Foster new patterns of behaviour among individuals, groups, and society at large towards sustainable practices and environmental responsibility.

**The Context:** In the pursuit of educational excellence, our institute recognizes the importance of instilling environmental consciousness among students and the broader community. Environmentalism is integral to the well-being of current and future generations, and our initiative aligns with the broader environmental context, incorporating socioeconomic, cultural, and cognitive considerations.

**The Practice:** It's commendable that the IQAC (Internal Quality Assurance Cell) and NSS (National Service Scheme) department of our college are actively organizing events to create awareness about the environment. These initiatives not only contribute to environmental sustainability but also help in fostering a sense of responsibility and consciousness among the students. Here's a brief overview of the events organised by our institute.

1. **Tree Plantation:** Planting trees in the college premises is a crucial activity held on dated 06-07-2022 on the occasion International Environment day. For environmental conservation as it helps in maintaining ecological balance and mitigating climate change.
2. **Wrakshbandhan:** It's interesting to see an event associated with a cultural festival. Our college girl students on the day of Wrakshbandhan dated 15-08-2022 tied a rakhis to the plants in our college campus.
3. **Environment Awareness Lecture:** Lecture by Mr.Bhosale D.G provides valuable insights and knowledge on environmental issues dated 08-09-2022, helping 55 students understand the importance of sustainable practices.
4. **Eco-Friendly Ganesh Idol Immersion Programme:** This event encourages the use of eco-friendly materials for religious celebrations, reducing the environmental impact associated with idol immersions was held on dated 09-09-2022 and 52 students are actively participated in this programme.
5. **Environment Awareness Rally:** Rallies are effective in spreading awareness among a broader audience. They serve as a means to engage the community and draw

attention to environmental concerns. The rally of our NSS students moved by nearby houses to collect 36 Ganesh Idols dated on 09-09-2022 for eco friendly immersion.

6. **One-Day Workshop on Seed Ball Preparation:** Seed ball workshops contribute to biodiversity by promoting the growth of native plants. This hands-on activity is educational and has a direct positive impact on the environment. The workshop was organized by botany department dated 03-05-2023 in the college premises and 69 students are actively participated in this programme.

7. **Debate Competition on Energy Conservation towards 'Net Zero':** Debates are an excellent platform for students to express their views on critical issues. This topic aligns with the global push for sustainable energy practices.

These events cover a wide range of environmental aspects, from tree planting to energy conservation, and involve different formats like lectures, workshops, debates, and rallies. This holistic approach ensures that students gain a comprehensive understanding of environmental issues and learn about various ways to contribute to a sustainable future. The college IQAC, State Coordinator Oil Industries Maharashtra State, Bharat Petroleum Corporation Limited, Mumbai and Laxmi Vaibhav Gas Agency, Karmala jointly organized debate competition on Energy Conservation towards 'Net Zero' on 06-05-2023 and 12 students are actively participated.

**Evidence of Success:** The initiative has significantly heightened participant awareness and inspired active engagement in environmental conservation. Noteworthy accomplishments include strategic goal-setting, defined target audience identification, and the successful execution of environmental campaigns within the community.

**Problems encountered and Resources required:** The critical role of environmental education in biodiversity conservation is acknowledged. To address existing gaps, efforts are underway to enhance existing syllabi by collaborating with PAH Solapur University, Solapur. Additional courses are proposed to further enrich the curriculum and ensure a comprehensive understanding of environmental preservation.

## **Environment Awareness Campaign Report**

**2022-23**

The environment is made up of both living and non-living things. We rely on the environment's resources, such as the air, land, and water, to meet our requirements. Meeting people's wants is another aspect of development. We put strain on the environment while attempting to meet the ever expanding needs. Environmental degradation is a significant issue when demand surpasses the capacity of the environment to repair or renew itself. There is a need to spread "awareness" regarding environmental conservation as a result. While national and international efforts are being made to conserve our environment, it is also the duty of every person to use our environmental resources responsibly and guard them against deterioration. We'll talk about the significance of environmental conservation in this lesson as well as the definition and causes of environmental deterioration. Typically, clay, plaster of paris (POP), plastic, and cement are used to create Ganesh idols. The idol is painted with toxic pigments as well.

After the immersion, the ingredient of the statue does not completely dissolve in water which then leads to environmental pollution. The pollution from Ganesh Chaturthi idols also damages the ecosystem, kills fishes and water plants. In many areas, the same polluted water gets pumped into homes. Ganesh Chaturthi festival ends with the Visarjan or immersion of the idols in water.

On 08<sup>th</sup> September 2022, the IQAC and NSS department organised a lecture on Eco Friendly Ganesh Immersion under the theme of Environmental Awareness Campaign. The chief speaker of the programme was Prof. D.G. Bhosale. In his lecture, he told the importance of Ganesh Idol making from clay and mud. It is the best eco-friendly option to harmful plaster of Paris Ganesh Idol. Also, he said that plaster of Paris how to pollute water and soil and its harmful effects on skin, stomach and kidneys etc. All the side effects are and different pollutions are controlled by various ways by immersion of Ganesh Idol. Furthermore, he told the importance of clay or mud Ganesh Idol easy to dissolve in water and

natural colours are easy dissolve in water. From the following year, our pupils promise to create eco-friendly Ganesh idols.

Prof. D.G. Bhosaletold how to immerse Ganesh Idols in water bath tub by using Ammonium Bi-Carbonate. The In charge Principal Dr. P.V. Deshmukh was President of the programme. He also guided students about environment awareness campaign. Prof. S. M. Jadhav also explained introductory part of the program and guided students. The Total 55 students were present for this programme.

### **Eco-Friendly Ganesh Immersion Programme Report**

**2022-23**

The IQAC and NSS department jointly organised Eco-Friendly Ganesh Immersion Programme on the occasion of Anant Chaturdashi. The programme was held on 09<sup>th</sup> September 2022. On this day, devotees perform aarti by lighting a diya and incense sticks. They offer flowers, modak, haldi-kumkum, paan, etc. to the Ganesh idol and then carry it for visarjan. The festivities end with Ganesh Visarjan, which is referred to as Anant Chaturdashi. Devotees bid farewell to Bappa on this day with the belief that he will return to their homes to bless them next year. Most of the Lord Ganesh Idols are made up from Plaster of Paris which takes a very long time to degrade in to the normal water and if it get dissolved the harmful contents remains in water. These harmful contents get inside the food chain and returns to the human beings also. The colours used for the decoration of the Ganesh Idol contain the harmful chemicals like mercury, titanium di-oxide which are harmful to the organisms.

For the purpose of Eco-friendly Ganesh Immersion, our NSS students collected Ganesh Idols from nearby houses. From the locals atotal of 36 Ganesh Idols were gathered. The rally of the program was moved from the college to nearby houses. Through this rally student created awareness about Eco-Friendly Ganesh Immersion among the people. Then the collected Ganesh Idols immerse in to the Ammonium Bi-carbonate water bath. From the precipitate Ganesh Idols were given to the Satyahari Brick Factory for betterment of the bricks while supernatant was used as a fertilizer.

52 students from the college were actively present for the program. All the teaching and non-teaching staff took efforts to make this programme successful.

Department of Botany & IQAC Cordially

Organizes

## One Day Workshop On "Seed Ball Preparation"

Resource Person  
Mr.Jadhav S.M.  
Assistant Professor and Head Department  
of Botany

Chief Guest  
Dr.Deshmukh P.V.  
I/C Principal

## THE PROBLEM

Living under the constant threat of natural disasters, it becomes vital for us to take protective measures. We need to focus our efforts on saving and conserving resources while giving back to the society through the restoration of the green cover.

Among our many initiatives to improve the green cover, making and dispersing seed balls is an efficient, cost-effective and fun way to restore mother Earth.

## THE PROGRAMME

A seed ball is an assortment of marble-sized spheres that are made of clay, the Earth, and seeds. They are an easy and quick solution to reclaim the lost green cover of our environment.

Seed balls help in restoring the soil quality and enriching it. The clay present in these seed balls reduces water loss and helps in increasing water retention.

In a way, creating seed balls is an effective way to plant wildflowers in hard-to-reach places. It helps in the restoration of the environment and responding positively to climate change.

## THE PROCESS

The programme is typically set up by the college on 03<sup>rd</sup> May 2023 in the college campus. This workshop was cordially organised by Department of Botany in association with IQAC for our students. In this workshop Mr.S.M. Jadhav (Assistance Professor Botany) worked as resource person and chief guest of this function was Dr.P.V.Deshmukh (I/C Principal) . Mr.S.M. Jadhav guided our students about why there is need of planting trees. He also guided students for preparation of Seed balls. During the workshop each of **69 participant** prepared 10 seed balls and hence total of 690 seedballs prepared which is equal to planting 690 plants in the area. The prepared seed balls were spread in the area nearby college on the occasion of birth anniversary of founder of our college late Pratapsinh Shankarrao Mohite-Patil.

### **Report of Debate/Group Talk Competition on Energy Conservation towards 'Net Zero'**

**2022-23**

The college IQAC, State Coordinator Oil Industries Maharashtra State, Bharat Petroleum Corporation Limited, Mumbai and Laxmi Vaibhav Gas Agency, Karmala jointly organized debate competition on Energy Conservation towards 'Net Zero' on 06/05/2023. The main aim of this debate competition was to aware students about energy conservation. Energy conservation is the effort to reduce wasteful energy consumption by using fewer energy services. This can be done by using energy more effectively or changing one's behaviour to use less service.

The programme started with offering flowers to the image of Rajashri Shahu Maharaj, Sahakar Maharshi Shankarrao Mohite-Patil and Pratapsinh Mohite-Patil. Mr. Jayant Dalavi, editor of the Kamalai Nagari Weekly Newspaper, and Mr. Vaibhav Shende, the head of the Laxmi Vaibhav Gas Agency, were the program's chief guests. The in charge Principal Dr. P. V. Deshmukh was the president of the programme. In total 12 students were participated in the debate competition.

On the occasion, journalist Jayant Dalvi expressed his views regarding necessity to save fuel from ourself and everyone should use the wealth of the country responsibly. Mr. Vaibhav Shende said that it is very important to organize such a competition to create more awareness about fuel conservation among the citizens and especially among the students and we should realize our essential need and use fuel otherwise the coming time will lead our country to anarchy.

The participating contestants in this competition were given solar lamps by Laxmi Vaibhav Gas Agency. The first winning team got Rs. 5001/- and the second placed team Rs. 2001/- cash prize was given by dignitaries. President of this program Dr. Pravin Deshmukh said that while saving fuel, we have to find some other options from which we can produce

cheap and abundant fuel without pollution and for that science students need to take initiative by researching and they must get financial support, moral support, and encouragement from social welfare organizations and the government. The total 64 students attended this programme. All the teaching and non-teaching staff took efforts to make this programme successful.

Prof. Gaikwad A.V. and Prof. Jadhav S.M. served as the competition's judges. The programme was introduced by Prof. Bhosale D.G., who also served as the program's anchor. Prof. Chopade A.S. delivered the vote of gratitude.

## "Debate/ Group talk on Fuel conservation" "इंधन बचत या विषयावर गट चर्चा"

महोदय,

महाराष्ट्र राज्य समन्वयक (पेट्रोलियम) यांच्या तर्फे विद्यालय व महाविद्यालय विद्यार्थ्यांना त्यांच्या उज्वल भविष्यासाठी व इंधन बचतीचे महत्त्व पटवून देण्यासाठी "गट चर्चा (Debate)" कार्यक्रमाचे आयोजन करण्यात आले असून भाग घेणाऱ्या विद्यार्थ्यांना प्रमाणपत्र मिळणार आहेत

- 1) स्पर्धेचा विषय : ऊर्जा संरक्षण- 'नेट जीरो' की ओर!  
Energy Conservation towards 'Net Zero'

2) वक्षिणे :

विद्यार्थ्यांना	चर्चा सत्रात सहभाग घेणा-या विद्यार्थ्यांना प्रमाणपत्र
शाळेसाठी	सहभाग घेणा-या प्रत्येक विद्यालय आणि महाविद्यालयाला प्रमाणपत्र

- 3) पात्रता : माध्यमिक विद्यालय आणि महाविद्यालयातील विद्यार्थी  
4) नियमावली :

- प्रवेश पुर्णपणे निःशुल्क आहे.
- चर्चेची भाषा मराठी/ हिंदी / English किंवा शालेय माध्यम भाषा
- कालावधी 24 एप्रिल 2023 ते 07 मे 2023
- इतर नियम व अटी मागे दिल्याप्रमाणे
- आयोजकांचा निर्णय अंतिम राहिल.

## प्रतापसिंह मोहिते-पाटील महाविद्यालयात वादविवाद स्पर्धा संपन्न झाली

करमाळा : करमाळा येथील प्रतापसिंह मोहिते-पाटील महाविद्यालयामध्ये महाराष्ट्र शासन भारत पेट्रोलियम मुंबई व लक्ष्मी वैभव गॅस करमाळा यांच्या संयुक्त विद्यमाने इंधन बचत व संरक्षण या विषयावर वाद विवाद स्पर्धेचे आयोजन करण्यात आले होते. सदर कार्यक्रमास हा इंधन सुरक्षा सप्ताह निमित्त अंतर्गत गुणवत्ता हमी कक्ष या विभागाकडून आयोजन करण्यात आले होते. याप्रसंगी कमलाईनगरी साप्ताहिकाचे संपादक जयंत दळवी व लक्ष्मी वैभव गॅस एजन्सीचे प्रमुख वैभव शेंडे, प्रमुख पाहणे म्हणून उपस्थित होते. कार्यक्रमाच्या अध्यक्षस्थानी प्राचार्य डॉ.प्रविण देशमुख हे होते. कार्यक्रमाची सुरुवात सहकार महर्षी शंकरराव मोहिते-पाटील, प्रतापसिंह मोहिते-पाटील व राजश्री शाहु महाराज यांच्या प्रतिमा पुजनाने झाली. या स्पर्धेमध्ये महाविद्यालयातील १२ स्पर्धक सहभागी झाले होते.

याप्रसंगी बोलताना पत्रकार जयंत दळवी म्हणाले, की इंधनाची बचत ही स्वतःपासून करणे गरजेचे असून प्रत्येकाने देशाची संपत्ती जबाबदारीने वापरली पाहिजे.

वैभव शेंडे म्हणाले, की नागरीकांमध्ये व प्रामुख्याने विद्यार्थी वर्गामध्ये इंधन संरक्षण याबद्दल अधिक जागरूकता निर्माण होण्यासाठी अशा स्पर्धेचे आयोजन खूप गरजेचे आहे व आपली आवश्यक ती गरज ओळखून आपण इंधनाचा वापर केला पाहिजे अन्यथा येणारा काळ आपल्या देशाला अराजकतेकडे घेवून जाईल.

या स्पर्धेत सहभागी स्पर्धकांना लक्ष्मी वैभव गॅस एजन्सी तर्फे सोलर लॅम्प तसेच प्रथम विजेत्या संघाला ५००१ रु. व द्वितीय येणाऱ्या संघाला २१०० रु. रोख बक्षीस मान्यवरांच्या हस्ते देण्यात आले. कार्यक्रमाचे अध्यक्ष डॉ.प्रविण देशमुख म्हणाले, की इंधन बचत करताना आपल्याला इतर काही पर्याय शोधावे लागतील की त्यामधून आपल्याला प्रदुषण विरहित स्वस्त व मुबलक इंधन निर्माण होईल व त्यासाठी विज्ञानाच्या विद्यार्थ्यांनी संशोधन करून पुढाकार घेणे गरजेचे आहे. समाजसेवी संस्था व शासन यांनी त्यांच्या मागे उभे राहून प्रोत्साहन किंबहुना आर्थिक पाठबळ देणे गरजेचे आहे; असेही देशमुख यांनी सांगितले. सुत्रसंचालन प्रा.डी.जी.भोसले यांनी केले तर उपस्थितांचे आभार प्रा.ए.एस.चोपडे यांनी मानले. परिक्षक म्हणून ग्रंथपाल प्रा.ए.व्ही.गायकवाड व वनस्पतीशास्त्र चे विभागप्रमुख प्रा.एस.एम.जाधव यांनी काम पाहिले.
