

## Cultural Participation: Driver of Social and Mental Challenges

Participating in cultural events has numerous positive benefits that remain under-exploited, from social inclusion to boosting health and well-being, as well as the cultivation of skills and entrepreneurship. It can also promote behaviour change to address social challenges. The objective of participating in cultural activities is to develop the all-round personality of the students by providing them a platform to represent their inner skills through various cultural activities. The cultural department of the college supports and provides facilities to the students who are interested in cultural events. The students have participated in various cultural activities at Intercollegiate and University Level competitions. The college provides platforms to students by arranging various cultural competitions in college and motivates them to participate in cultural activities organized by other institutions. During the year 2022-23, 40 students from college participated in various cultural competitions and won prizes. These activities teach them to develop a sense of social and personal responsibility. It also strengthens the confidence of the students to face the challenges in their future life. The students can become academically strong as well as socially and culturally strong.
